

Animal Silhouettes

Many animals in the Rouge Valley are *crepuscular*.

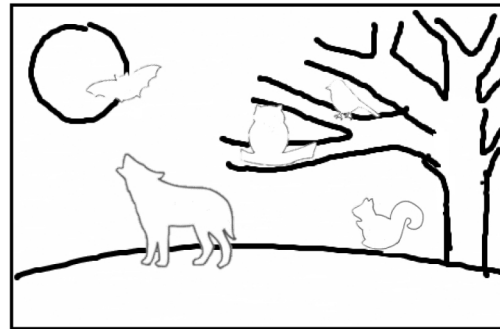

This means that they are most active at dusk or dawn. It's hard to see animals when there isn't much sunlight, so you are more likely to see their silhouettes.

Create a piece of art using animal silhouettes! You can draw your own animals, or print and trace our templates.

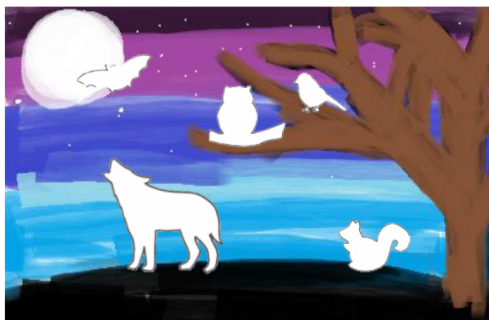

1. Design a habitat with trees, meadows, rivers...anything you'd like!

2. Draw or trace your animals into their habitat

3. Colour or paint your habitat

4. Colour or paint your animals black to make silhouettes

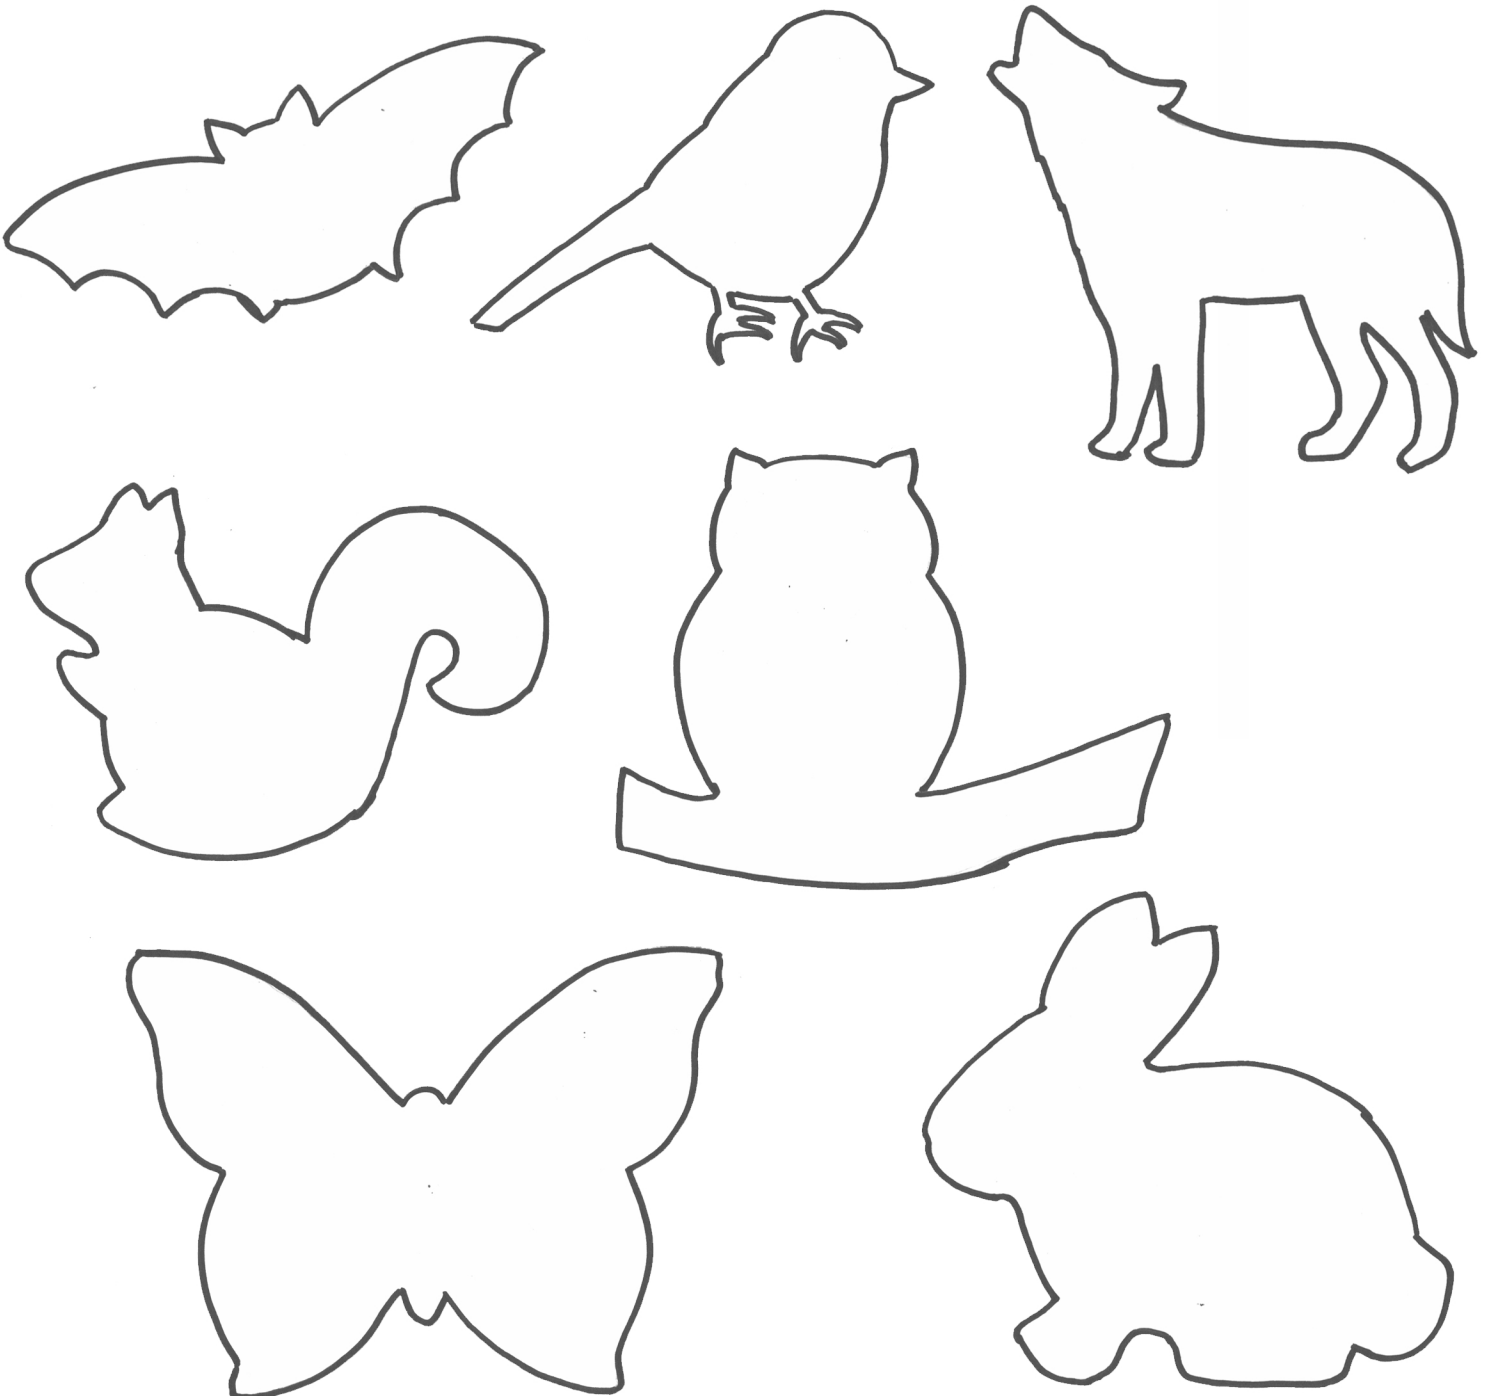

Tip: Don't use really dark colours, or else your silhouettes won't show up!

Animal Silhouettes

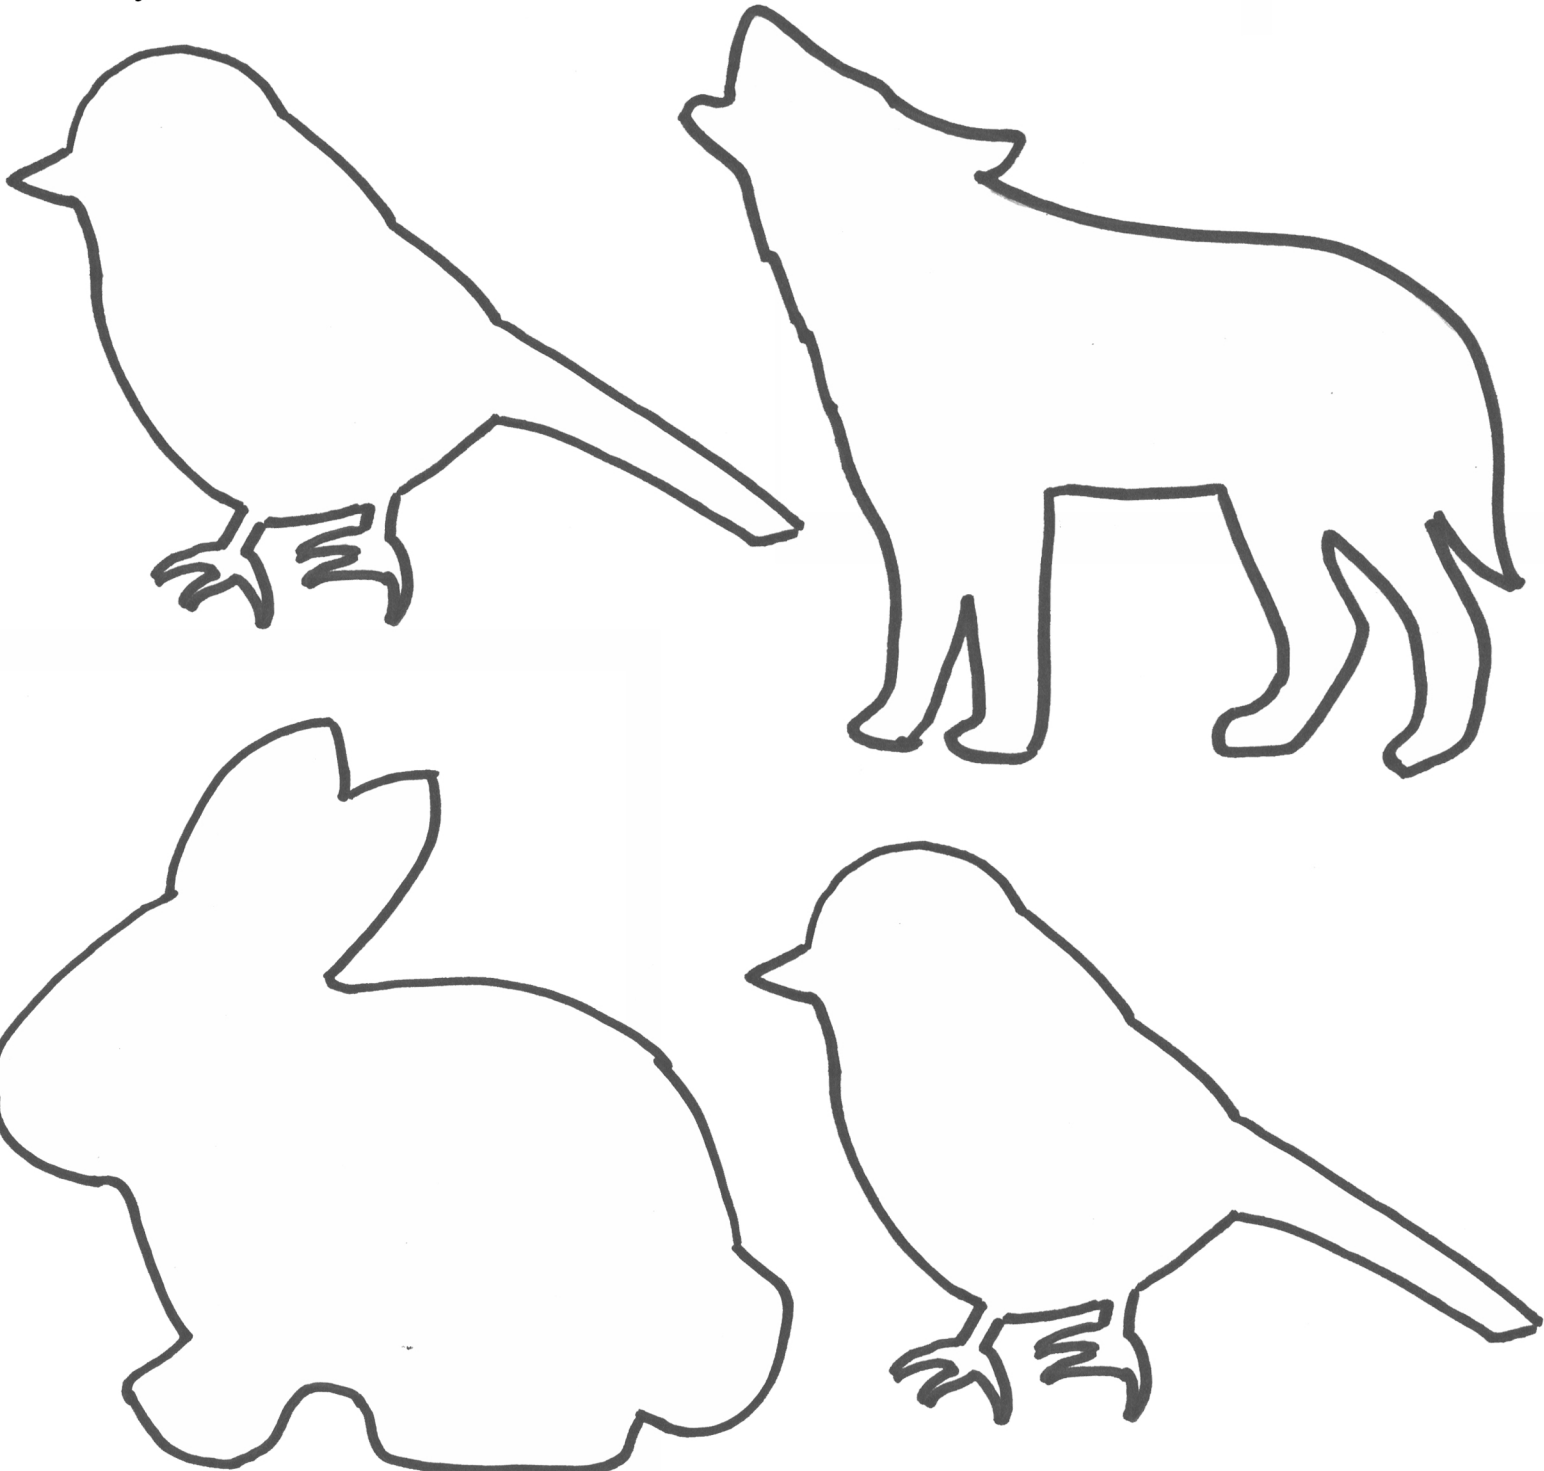

Print the silhouettes below on cardstock and use them to make your nature scene.
